EDUCATION

Bharati Vidyapeeth College of Engineering

Bachelor of Technology

Pune, Maharashtra

April 2018 – July 2022

TECHNICAL SKILLS

Languages: C++, C, Java (Basics), Dart (Basics), SQL, HTML/CSS

Subjects: Data Structures, Algorithms, DBMS, OOPs

Frameworks: Flutter, Django, VueJS, ReactJS, WebVR, SQLite, Bootstrap 4, jQuery

Developer Tools: Git, VS Code, Visual Studio, Eclipse, Figma

Operating System: Windows, Unix

EXPERIENCE

Flutter Developer Intern

Gallant Technologies

May 2020 – August 2020

Pune

- Developed UI provided by UI design team, created custom UI widgets, and reused it.
- Implemented state management in Flutter applications to manage state of page/data until user's session ends.
- Grasped state management and API integration techniques quickly and also helped teammates to work on it.

PROJECTS

Cafe Deewane | SCSS, JS, GSAP

https://aayushigupt.github.io/Cafe_/home.html

- Built an interactive website for a cafe that helped them gain customers through zomato and swiggy and grow their online presence

Sweep | Flutter, Firebase

<https://github.com/aayushigupt/Cooper>

- Following the rule of clean India sweep application is based upon that. Those areas which are not in reach of government. Government will be able to know about this.

Scan-Q | Flutter, Django

<https://github.com/aayushigupt/Scan-Q>

- A digital platform to register both teachers and students to maintain attendance. The focus was on eliminating the proxies, maintaining the records, reducing the human error.

Portfolio Website | Flutter, Firebase, VueJS

<https://github.com/dscbvppune/folio-app>

- For a beginner, it becomes tedious to build a website from scratch, deploy and host it. We built a mobile app which would empower website owners to easily host their website.

VOLUNTEER

Application Development Lead

Google Developer Student Club, BVP

May 2020 – May 2021
